**Inspire Institute of Sport, Vijayanagar**  
Strength & Conditioning Coach  
**(Combat Sports)**

**Our Vision**

IIS to be India's medal factory within all chosen Olympic sports and academy of choice for all aspiring Olympic champions of the future

**Our Mission**

Continuously evolve the IIS athlete development system which through factual and logical information identifies then grows talent that can achieve major medals success during future Olympics games.

**Our Values**

Our values are Commitment, Ownership, Responsibility, Excellence, Integrity and Intensity.

**Your Role**

**Strength & Conditioning Coach**

Reporting to the Head of Physical Performance, you will facilitate the delivery of world-class strength & conditioning support as assigned to our core sports. Embedded in your sport and in close collaboration with our multi-disciplinary staff, you will strategize, innovate and implement means to develop the physical capacities of our athletes. Practical, open minded and forward thinking, you will tailor and drive the delivery to your sport aligned to key responsibilities and as outlined below;

**Key Responsibilities**

- Lead the design and delivery of S&C preparation plans to athletes in accordance with seeking elite physical performance gains and facilitating the realisation of individual performance goals within an athlete's chosen sport.
- Working in collaboration with the physiotherapy department to establish and deliver return to play protocols for post injury or surgery rehabilitation.
- Proven experience delivering S&C programmes to elite or high-level combat sport athletes (wrestling, judo, taekwondo, etc.).
- Demonstrate excellent practical application of core strength & conditioning concepts in line with IIS values
- Demonstrated ability to work effectively within an interdisciplinary team (e.g., coaches, physiotherapists, sports massage therapists, analysts) to design and deliver integrated performance strategies.
- Collaborate with physiology staff to ensure well aligned, physiologically directed programming interventions.
- Demonstrate understanding of combat-specific physical qualities including grip strength, rotational power, force-production under fatigue, and contact robustness.
- Communicate with other departments and have knowledge about managing weight-class athlete preparation, including safe weight-management practices, strength retention during cuts, and periodised nutrition/S&C alignment.
