

MSc by Research Opportunity (1yr FT, 2yr PT):

‘The effect of athletic development interventions on wellbeing markers in school aged children’

Are you passionate about youth athletic development and the wellbeing of young people?

Join an exciting research collaboration between Heriot-Watt University and Strathallan School looking into game changing education

We're seeking an individual with a background in sport and exercise science, physical education, strength and conditioning, or a related field with a strong interest in youth development and the wellbeing of adolescents and children. You will need strong interpersonal skills and be able to collaborate with university and school staff.

Is this role for you? Apply [here](#), or use the QR code

Career and Education benefits offered by this role:

- Fully funded MSc by Research (tuition fees) supported by Heriot-Watt expert academic staff, and advisory from Leeds Beckett Centre for Child and Adolescent Physical Literacy staff throughout the research journey.
- UKSCA Trainer award
- Free delegation to Leeds Beckett conferences and events
- Experience in a leading co-educational boarding school, athletic development and sports departments across a wide range of sports and physical activity modes.
- If you have any queries, contact Dr Mark Ross (M.Ross@hw.ac.uk) for more information

Closing date: 1st August 2025
